## Executive Authority Statement

In 2023 we celebrated a significant increase in the number of international arrivals to our shores. This marked an end to the dire state of tourism after the COVID-19 pandemic and a noteworthy milestone for the tourism sector. Now, as we breathe a sigh of relief, we look ahead to growing the tourism industry even further.

The 2024/25 Financial Year comes as the government enters the 7<sup>th</sup> administration. We need to work together, in partnership with the private sector, to ensure we create the conditions conducive to job creation and sustainability. We live in a beautiful country and the world should see that. Coupled with this, accessibility is key for our citizens. Here, we have also seen a remarkable increase in domestic tourism. So, this Financial Year will bring with it clear policies, regulations, and strategies for us to grow the sector.

Following the Cabinet's concurrence, the Green Paper on the Development and Promotion of Tourism in South Africa was published for public comment in September 2023. The review seeks to align the tourism policy with current government policy frameworks and define the next phase for tourism development in South Africa.

A strong tourism brand in South Africa can attract tourists and boost the economy. Understanding tourists' perceptions, both domestically and internationally, and staying competitive is crucial. Through our entity, South African Tourism, we will implement the Global Tourism Brand Campaign Plan in 2024/25 and develop an Integrated Tourism Brand Strategy for the next Financial Year 2025/26. These are in line with our Tourism Sector Master Plan which requires us to confirm and implement a brand management protocol as well as develop and implement a global marketing campaign targeted at high-value source markets. This will assist us in increasing the volume and value of domestic and international tourism.

The Department has implemented destination enhancement and route development projects to diversify tourism and improve visitor experiences. To address infrastructure challenges, the Department has partnered with the Development Bank of Southern Africa (DBSA) to manage various projects. These form part of the Presidential Employment Stimulus (PES), aligned to the Tourism Sector Recovery Plan (TSRP), now converted into the Masterplan.

Looking beyond our borders, the Department maintains good multi-lateral relationships through the UNWTO, BRICS, AU, SADC, G20, and the Indian Ocean Rim Association.

The Department has also numerous bilateral agreements in place on tourism cooperation especially with countries on the continent. The Department will continue to leverage South Africa's tourism interests in these multilateral fora to advance national priorities.

The Department, further, seeks to enhance regional tourism integration targeted at African countries. This is done through the implementation of signed agreements and negotiating MoUs with the view of creating opportunities to establish strategic partnerships.

For the 2024/25 financial year, the Department has planned to implement one workshop on sharing of Best Practices 2025 targeted at African countries with whom South Africa has signed tourism agreements.

Back home, the Tourism Incentive Programme (TIP) serves as a tool to stimulate the growth, development, and transformation of the South African Tourism sector. Tourism is a concurrent function; therefore, all aspects of the TIP are implemented in collaboration with other government departments and entities.

In this regard, the department has formal partnerships through memoranda of agreement with entities such as the National Empowerment Fund (NEF), the Industrial Development Corporation (IDC), South African Tourism (SA Tourism), and the Small Enterprise Finance Agency (SEFA).

Through this Programme, the Department provides incentives to privately-owned enterprises. The Green Tourism Incentive Programme (GTIP), administered by the IDC, seeks to encourage private tourism enterprises to move towards more efficient utilisation of energy and water resources. The GTIP will proceed in the new year.

The Tourism Monitors Programme will be implemented in 2024/25 in all provinces to ensure that there is an integration of tourism-related safety and awareness initiatives into a strategy implemented by the public and private sectors, as well as communities. The objective is to enhance tourism safety awareness at key tourism attractions or sites

The Department will, further, continue with the implementation of initiatives to support tourism SMMEs. This will be done through the implementation of the Business Incubation Programme implemented. It will focus on Community-based Tourism Enterprises Incubator, Business Advisory Services focusing on Women in Tourism in Limpopo, and Business Advisory Services focusing on the Homestay Pilot Programme.

As we endeavor to tackle the triple threat of poverty, inequality, and unemployment, the Department has planned to create 5820 work opportunities through EPWP Working for Tourism projects for the 2024/25 financial year.

Furthermore, following an out-of-court Tourism Equity Fund settlement, The Tourism Equity Fund will now be rolled out with a requirement for 30% Black ownership. The R1.2 billion fund is managed by the Small Enterprise Finance Agency (sefa) on behalf of the Department and is tailored to provide a combination of debt and grant finance to facilitate equity acquisition and entrepreneurship. The Department will continue to explore ways of achieving scale in efforts to address the transformation of the sector and encourage more participation and ownership by Black people in tourism operations.

In conclusion, I would like to thank Deputy Minister, Mr. Fish Mahlalela, Director-General, Mr. Victor Tharage, and all officials for their tireless efforts as we strive to accelerate tourism growth in the new administration.

P. de Lille

---

**Ms Patricia De Lille, MP**

**Minister of Tourism**

## Deputy Minister Statement

Over the past 30 years, our government has deliberately driven an agenda of transformation and sustainability in the expansion and growth of the tourism sector. Despite numerous challenges, scores of successful programmes were implemented to make tourism an enterprise for everybody.

The 2024/25 financial year is geared towards the rapid acceleration of this transformation agenda which will require an inclusive approach that ensures that all, in particular, the most vulnerable in our society, youth, women, and people with disabilities enjoy the benefits of the success of the sector.

It must provide young and old with multiple employment and entrepreneurial opportunities to transform their lives and communities. As the world's fastest-growing employment sector, tourism continues to adapt to new trends positioning it as a significant economic driver. It should also promote cultural understanding and respect for diversity by encouraging interactions between people from different backgrounds and geographies. In line with the inclusion and sustainability element, the local tourism sector has a significant population of small businesses, that must drive growth of the sector and contribute towards job creation.

One of the strategic interventions in the Tourism Sector Masterplan relates to the strengthening of the supply-side through resource mobilisation and investment facilitation. Strengthening the supply side, including through attracting new investments into the tourism sector, and implementing tourism incentives is important for the long-term sustainability and resilience of the sector.

As part of strengthening supply, accelerating the grading of establishments as part of facilitating their expanded utilisation will be undertaken through our public entity. The focus will be on targeting the tourism establishments that join the Tourism Grading Council of South Africa (TGCSA) Star Grading Membership Scheme for grading.

This will give a clear expression of our Tourism Sector Master Plan's commitment to accelerate the grading of establishments and encourage the utilisation of commercial venues for conferences and meetings by organs of state to stimulate demand in business events.

South Africa continues to be the leading business events destination in the region, and this compels the South African National Conventions Bureau (SANCB) to retain the destination's competitive advantage in the global business events sector. This is ensured through numerous campaigns, deployed to ensure consistent marketing and promotion efforts across the globe.

The purpose of these campaigns, such as B2B global and domestic brand campaigns, is to contribute to effective marketing of the destination and to contribute to positioning South Africa as a business events destination to attract these into the country.

The SANCB is mandated to market South Africa as a premier business events destination and to secure international and regional meetings, incentives, conventions, and exhibitions. Thus, the SANCB actively seeks to develop leads for future business events so that South Africa can continuously enhance its bidding pipeline.

The focus of the bids to be submitted through our National Conventions Bureau for the 2024/25 financial year will be on international and regional business events (meetings, incentives, conventions, and exhibitions) and tracking thereof as part of the bidding pipeline. This commitment will link up with our Tourism Sector Master Plan.

The Master Plan commits us, as part of reigniting demand, to implement a domestic business events campaign in support of business events in villages, townships, and small towns as part of ensuring inclusive, as well as sustainable, recovery. This also requires the implementation of a global business events campaign as part of positioning South Africa's hosting capabilities.

As part of the diversification and enhancement of tourism offerings owned by communities, the Department will monitor the implementation of twenty-two (22) community-based tourism projects monitored across the country. Namely as follows:

- **Limpopo:** Vha Tsonga, Phiphidi Waterfall, Oaks Lodge, Ngove, Matsila Lodge, Nandoni Dam, Royal Khalanga Lodge, Mtititi Game Lodge; Tisane, Mapate Social Recreation, Tshathogwe Game Farm.
- **Free State:** Vredefort Dome, Qwa Qwa Guest House,
- **North West:** Manyane Lodge, Lehurutshe Bird and Trophy Hunting.
- **Northern Cape:** Platfontein Lodge, Kamiesburg.
- **KwaZulu Natal:** Muzi Pan.
- **Eastern Cape:** Qatya Lodge Conferencing/accommodation, Mthonsi Lodge.
- **Mpumalanga:** Numbi Gate (Nkambeni), Numbi Gate (Mdluli).

Our various **Youth Skills Development Programme** being offered focus on interventions to improve visitor experience, and are based on industry demand for these skills. These various training programmes are implemented in partnership with the private sector.

The objective is to contribute towards poverty alleviation through payment of stipends; and placement of learners in Tourism and Hospitality establishments, thereby granting them exposure to job opportunities and income generation. At the end of these programmes, learners are provided with accredited or recognised certificates and are well-positioned to further their studies at Further Education and Training Colleges.

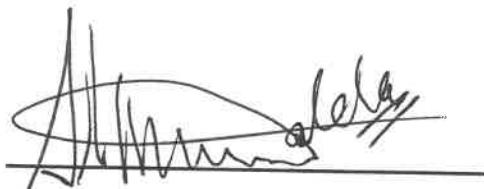

These include

- Training of 2700 unemployed youth on norms and standards for safe tourism operations.
- Training of 250 SMMEs on norms and standards for safe tourism operations in all nine provinces.
- Hosting of the National Tourism Careers Expo in 2024. This is to promote tourism as a career, profession, and business of choice whilst inversely presenting a platform for industry to sell itself as an employer of choice.
- Enrolling 50 Chefs to undergo a Recognition of Prior Learning process.
- Training of 450 unemployed youth on various skills development programmes.

Our closer collaboration with the Department of Transport has seen the elimination of the backlog for Tour Operator Licensing, achieving the commitments made by the President at the 2023 SONA on red tape reduction.

The Department will continue to collaborate with the Department of Home Affairs and the Project Management Office in the Presidency to achieve better alignment within the visa regime and the destination marketing efforts. Where visas remain a requirement, visa issuing capacity must be enhanced to reduce turnaround time.

In conclusion let me reiterate the words of our President Cyril Ramaphosa during SONA that we will continue to position our economy to grow and compete in a fast-changing world, to support small businesses, to give young people economic opportunities and to provide social protection to the vulnerable and in the process ensure that no one is left behind.

A handwritten signature in black ink, appearing to read "Mahlalela". It is written over a horizontal line.

**Mr. Fish Mahlalela, MP**  
**Deputy-Minister of Tourism**

## **Accounting Officer Statement**

Tourism is a catalyst for sustainable and inclusive growth. It promotes social inclusivity, creates employment, and contributes to poverty reduction - Through our various incentives and funding the Department is supporting growing sustainable tourism SMMEs and tourism enterprises. Our programmes create jobs, enhance skills, and improve the quality of our tourism products.

As part of our contribution to the Government's economic transformation agenda, we will seek to achieve 40% expenditure on procurement of goods and services from SMMEs, 40% procurement spend from women-owned businesses, and ensure that all compliant invoices are paid within 30 days.

The Department will continue to build on the competitiveness of Tourism SMMEs through entrepreneur development, skills training, advisory services, mentorship, information sharing, and market exposure programmes. The Department will continue with the implementation of the Green Tourism Incentive Programme (GTIP), administered on our behalf by the IDC, to encourage private tourism enterprises to move towards more efficient utilisation of energy and water resources. The GTIP provides partial grant funding support of 50% to 90% of the cost of retrofitting tourism facilities with energy and water efficiency equipment and systems, up to R1 million, based on the results of a resource efficiency assessment.

Micro Enterprises face a high failure rate due to multiple challenges that relate to compliance with regulatory and industry operating standards, poor networking, and knowledge of available support for various business needs. To address the challenge, the Department has planned to provide 150 SMMEs with compliance and resilience support. The support will be in the areas of regulatory compliance, service standards, business rescue, and operational efficiency. These transformative interventions, particularly incentives and SMME development, will contribute to expanding participation and achieving inclusivity. They will help the industry to foster the growth and survival of SMMEs.

The outputs related to the diversity of offerings, capacity building, and skills development are intended to affect positively the tourist experience, in turn affecting the destination's reputation, increasing volumes and spending. This will increase the tourism sector's contribution to economic growth.

The experience of the tourists is a key factor in the success of the destination. It affects the destination's reputation. As a service industry, tourism growth is enabled by memorable experiences and enhanced visitor experience. The safety and security of visitors impact significantly to their experience and the reputation of the destination. More than any other economic activity, the success or failure of a tourism destination depends on being able to provide a safe and secure environment for visitors.

As part of the implementation of the Tourism Safety Programme, the Department will conduct Joint Tourist Safety Campaigns sessions. These are tourist awareness sessions that form part of the initiatives of the Proactive measures of the Tourism Safety Plan.

The Department has prioritised supporting rural and township economic development through implementing empowerment models that are geared toward employment opportunities. These include capacity building, skills development, business development, and incubation support programmes.

The Department implements the Enterprise Development Support Programme as one of its strategic ways to grow and sustain tourism SMMEs. Tourism Business Incubation is a sub-programme under the Enterprise Development Programme. Several initiatives are planned for implementation in 2024/24 to support tourism SMMEs. These include the implementation of the Business Incubation Programme for Community-based Tourism Enterprises Incubator, Business Advisory Services focusing on Women in Tourism in Limpopo, and Business Advisory Services focusing on the Homestay Pilot Programme.

Skills Development Programmes to be undertaken in 2024/25 will focus on training unemployed youth, as well as SMME training on norms and standards for safe tourism operations. They would also include the implementation of Recognition of Prior Learning for Chefs.

As part of the development and maintenance of our knowledge systems for the 2024/25 financial year, the Department will develop and implement phase one of the Market Access Support Programme (MASP) application system. The aim is to provide a digitalised and automated platform to access, applications and management of the MASP. It is anticipated that the project will enable sector support services through a modernized platform, thus ensuring lean turnaround times. Furthermore, the Department will maintain, support, and enhance the Tourist Guide Information System.

The Department will continue with the implementation of destination enhancement and route development projects to diversify tourism offerings and enhance visitors' experience in identified priority areas. The Department entered into a partnership agreement with the Development Bank of Southern Africa (DBSA) in November 2020 to implement and manage the delivery of various infrastructure projects. We have planned to implement, amongst others, tourism enhancement projects in one World Heritage Site namely Robben Island Museum for the 2024/25 financial year.

The Expanded Public Works Programme (EPWP) includes both skills and infrastructure development programmes, mainly implemented in rural areas. In addition, there is also the implementation of Community-based Tourism Projects; most of which are in rural areas, but some of which are in township settings.

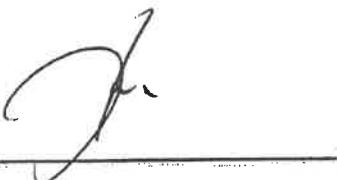

The Cabinet approved the Tourism Sector Masterplan in September 2023 for implementation. The Plan was gazetted for public noting. The Plan contains three (3) pillars: Protect and Rejuvenate Supply, Reignite Demand, and Strengthen Enabling Capability to support the sector's recovery and long-term sustainability. The goal is to preserve jobs and livelihoods within the sector, facilitate the creation of new job opportunities, match demand and supply, and strengthen transformation in the sector, including empowerment of women, youth, and people with disabilities.

Tourism is a collaborative endeavour for destination businesses in the sense that tourists see a destination as a whole, and the quality of their experience is dependent on all components of the value chain operating seamlessly together. A highly competitive tourism destination is one where all of the interconnected and integrated services and inputs work together to create

a great experience. All stakeholders must collaborate to design, implement, assess, and continuously improve the tourist offering and guest experience. It is for this reason that partnerships with community stakeholders, government, business, and civil society are the backbone of a stable and efficient tourism sector.

The Department appreciates the role played by the Minister and Deputy Minister, as well as the Portfolio and Select Committees concerning oversight of our operations.

The officials of our Department who play their part in ensuring that our commitments expressed in the Annual Performance Plan translate into reality are also appreciated.

**Mr Nkhumeleni Victor Tharage**  
**Accounting Officer**

## **Official Sign-Off**

It is hereby certified that this Annual Performance Plan:

- Was developed by the management of the Department of Tourism under the guidance of the Minister;
- Takes into account all the relevant policies, legislation, and other mandates for which the Department of Tourism is responsible;
- Accurately reflects the Outcomes and Outputs which the Department of Tourism will endeavour to achieve over the period 2024/2025.

## **PART B: OUR MANDATE**

### **1. Updates to the relevant legislative and policy mandates**

#### **1.1 Legislative mandate**

Tourism Act, 2014 (Act No.3 of 2014) aims to promote the practice of responsible tourism for the benefit of the Republic and the enjoyment of all its residents and foreign visitors; provides for the effective domestic and international marketing of South Africa as a tourist destination; promotes quality tourism products and services; promotes growth in and development of the tourism sector, and enhances cooperation and coordination between all spheres of government in developing and managing tourism.

#### **1.2 Policy mandate**

- The White Paper on the Development and Promotion of Tourism in South Africa, 1996, provides a framework and guidelines for tourism development and promotion in South Africa.
- The National Development Plan (NDP) is the 2030 vision for the country. It envisions rising employment, productivity, and incomes as a way to ensure a long-term solution to achieve a reduction in inequality, an improvement in living standards, and ensuring a dignified existence for all South Africans. The NDP recognises tourism as one of the main drivers of employment and economic growth.
- The Re-imagined Industrial Strategy identifies tourism as one of the seven national priority sectors.
- The National Tourism Sector Strategy (NTSS) guides the strategic development and growth of the tourism sector in pursuit of NDP targets.
- Tourism Sector Masterplan (TSMP) - derived from Sector Recovery Plan (TSRP). It primarily aims to galvanise government, industry, and labour to collectively share a common vision that will position the tourism industry on an inclusive and sustainable competitive path for the benefit of all South Africans.

### **2. Updates to Institutional Policies and Strategies**

The following policies and strategies are due for review within this medium term:

- The National Tourism Sector Strategy (NTSS), 2016.
- Tourism Act, 2014.
- National Grading System.

### **3. Updates to Relevant Court Rulings**

- Tourism Relief Fund: The Supreme Court of Appeal ruled that the Minister was not obligated or entitled to incorporate race-based criteria into the selection criteria for SMME grants. Therefore, the SCA's judgement remains the binding authority on it.

## **PART B: OUR STRATEGIC FOCUS**

### **4. Updated Situation Analysis**

#### **4.1 External Environment Analysis**

##### **Significance of Tourism**

Tourism is recognised for its immense potential and significant economic contribution. The government's recognition of the critical importance of tourism in the economy is evident in the sector's inclusion as one of the priority areas of the National Development Plan (NDP) and the Economic Recovery and Reconstruction Plan (ERRP). This is due to tourism's labour-intensive nature, the potential to stimulate small business development, and the ability to generate Foreign Direct Investment (FDI) as well as significant export earnings.

Tourism has been identified as one of seven (7) priority sectors within South Africa's Re-Imagining Industrial Strategy approved by the Cabinet in 2019. This is the basis upon which the Tourism Sector Recovery Plan (TSRP) is converted into a Tourism Sector Masterplan, adopted by Cabinet in 2023, which aims to galvanise social partners to collectively act on a shared vision, identify priorities, and deliver economic activity and jobs. The Masterplan is based on three strategic themes: Protecting Supply, Re-igniting Demand, and Strengthening Enabling Capability for Long-Term Sustainability. It includes seven Strategic Interventions, focusing on education, skills development, entrepreneurship, infrastructure, social cohesion, environmental preservation, governance, and regional cooperation.

##### **Travel and Tourism's Contribution to the South African Economy**

Tourism supports a vibrant and complex value chain, but unlike many other sectors in South Africa, it is not characterised by significant market concentration and deep vertical integration. Activity occurs in five sub-sectors: 'Travel Distribution and Intermediaries', 'Transport and Related Services', 'Accommodation', 'Entertainment and Related Services', and 'Support and Indirect Services'. Within each sub-sector, a variety of industries provide a wide range of visitor services and activities.

For many countries, the tourist industry is expanding faster than other economic sectors. From a trend standpoint, this is undoubtedly the case in South Africa, where tourism is a key contributor to the economy. With its vast value chain and labour absorption potential, it is recognised as a vehicle for inclusive economic growth, playing an important part in addressing the country's socioeconomic difficulties. Among these include the supply of employment to people with diverse skill levels, the employment of women, notably in rural regions, and the geographic distribution of tourist advantages. The sector generates large foreign exchange and has significant forward and backward links with other economic sectors, impacting the overall economy.

##### **Contribution to Gross Domestic Product**

Tourism is essential to the South African economy as a whole. Tourism contributes significantly to the economy as a tertiary sector with strong ties to transportation, consumer retail, financial services, and other network industries. The World Travel and Tourism Council (WTTC) country report for South Africa: 2021 shows that tourism's direct and indirect contribution to GDP increased from R180 billion in 2020 to R195.2 billion in 2021 (3.2% of GDP), representing an 8.4% increase.

## **Contribution to Employment**

The WTTC estimated that in 2021 the travel and tourism sector contributed about 1081,5 jobs, which was an increase of 1,9% (contributing 7,3% to total employment) compared to 1061,4 jobs (7,0 share % to the country's total employment) in 2020. The direct contribution of tourism to employment was estimated to have increased from 509 000, 000 in 2020 to 543 900, 000 in 2021 (3,7% of employment), which was a positive growth of 6,8%.

## **Risks Affecting Tourism**

The tourism industry continues to function in a tumultuous global context. The World Economic Forum cites several hazards for the year 2024. These dangers have the potential to significantly harm the global tourism industry. Among these are geopolitical tensions caused by conflicts in Europe and the Middle East.

The war has already influenced the availability of raw materials such as nickel, palladium, and titanium, which are used in aircraft manufacture, influencing airline decisions. They also include extreme weather patterns, a cost-of-living issue that reduces discretionary money, misinformation and deception, and violent civil strikes and riots.

South Africa is also affected by the aforementioned global dangers. However, there are also local risks that the tourism industry must deal with in 2024. These include, among other things, public debt and associated cost-cutting measures; infrastructure challenges in general, as well as those affecting tourist attractions; the frequency of extreme weather patterns such as climate change and its impact on tourism infrastructure; and the cost-of-living crisis, which has the potential to undermine domestic tourism. Accessibility concerns and communication barriers across departments; safety and security; and unemployment, poverty, and social inequality.

## **Tourism Sector Recovery**

Throughout history, the tourism industry has shown resilience in the face of global financial crises and health pandemics. However, the size and depth of the disruption caused by the COVID-19 health and economic crises indicated that the road to tourism recovery would be lengthy and unclear. The United Nations World Tourism Organisation (UNWTO) predicted that the sector would only return to pre-crisis levels in 2023. Until then, the sector was mostly in survival mode. Many tourism employment remained in jeopardy, and some enterprises in the sector faced the possibility of permanent closure.

The TSRP was developed as a deliberate response by the sector and its constituent partners to the multiple challenges brought on by the pandemic. The Plan acknowledged the need for targeted, coordinated action to mitigate the impacts of the crisis and set the sector on the most optimal path to recovery, transformation, and long-term sustainability.

Recovery efforts were hampered by a series of severe floods in KwaZulu-Natal and sections of the Eastern Cape. These have resulted in significant infrastructural and income losses for the tourism sector. With the flooding receding, South Africa continues to experience load shedding, which is equally terrible for the tourism industry and other economic activity.

## **Travel Facilitation**

Tourism's priorities for the remainder of the 6<sup>th</sup> Administration include collaboration with the Department of Home Affairs (DHA) to improve eVisa turnaround time for tourists, as well as identifying additional countries with high inbound tourism potential and modalities to enable better visa facilitation.

The Department of Tourism is constantly working with the DHA to increase ease of entrance to South Africa through digitization of passenger processing and the further roll-out of the e-visa system. Continuous engagement with the DHA and tourism partners is also intended to inform travellers about South Africa's Visa processing system and the Advance Passenger Processing (APP) system in certain tourism markets.

Air access to South Africa to expand the tourism sector is also a priority for the rest of the present administration. In this sense, the Department of Tourism is a member of the Department of Transport's Strategic Planning Committee (SPC), which focuses on aviation connectivity.

The Department also participates in Tourism Forums, where updates on bilateral air service agreements and negotiations are delivered. Tourism and transport departments worked together to guarantee that the TAP Portugal / Lufthansa Code Share application was approved.

Due to its multiplier effect, labour intensity, and value chain that creates significant employment opportunities for people, including women and youth, amongst others, tourism is recognised as a priority sector of the South African economy. The industry's interlinkages with other economic sectors provide business opportunities for SMMEs, which is why it was identified as one of seven key sectors in South Africa's Re-Imagining Industrial Strategy, approved by Cabinet in 2019.

South Africa is geopolitically unique, with natural and cultural variety that offers an internationally appealing tourism proposition. SA has exceptional biological richness, ranking in the top six most biodiverse countries in the world (African Wild Life Foundation, 2018) and far by the most diverse for its size. Seven unique biomes exist within the country's borders, which are highlighted by ten World Heritage Sites, twenty-two national parks, and hundreds of wildlife and nature reserves. The country's variety of attractions makes it a popular tourist destination.

#### **4.2 Internal Environment Analysis**

The National Treasury's cost-cutting efforts, as well as the subsequent Directive on the Implementation of Control efforts aimed at supporting Executive Authorities in ensuring fiscal sustainability, have an impact on operations. The Department's output is directly linked to the filling of vacancies.

The Department's vacancy and turnover rate shows a negative trend, potentially hindering its mandate and impacting its ability to achieve organisational goals due to cost containment measures.

The Audit Action Plan, which strengthens controls, as well as implementation of corrective measures, aims to prevent the Department from repeating mistakes and addressing inherent administration risks.

The Department's ability to expand services and infrastructure will always be hampered the budget cuts to respond to the country's fiscal difficulties.

## PART C: MEASURING OUR PERFORMANCE

### 5. Institutional Programme Performance Information

#### Programme 1: Administration

**Purpose:** To provide strategic leadership, management, and support services to the Department.

#### Sub-Programmes and Purpose:

- **Strategy and Systems:** To manage and coordinate strategy and systems as well as provide public entity oversight.
- **Human Resource Management and Development:** To manage the provision of human resource management and development.
- **Communications:** To manage the coordination and provision of communications support to the department.
- **Legal Services:** To manage the provision of legal support services.
- **Financial Management:** To manage and facilitate the provision of financial management services.
- **Internal Audit:** To manage the provision of internal audit services.

## 5.1 Outcomes, Outputs, Performance Indicators and Targets

**Table 1: Outcomes, Outputs, Output Indicators and Targets**

| Output Indicator   | Audited/Actual Performance  |  |   | Annual Target   |   |   | MTEF Period   |  |
|--|---|--|---|---|---|---|---|--|
|  | 2020/21   | 2021/22  | 2022/23   | 2023/24   | 2024/25   | 2025/26   |   |  |

| 8. Percentage of Workplace Plan implemented.                             | Skills (WSP).  | 100% implementation of WSP.                           | 100% of WSP targets achieved.                         | 100% of WSP Q1 targets achieved.                      | 100% of WSP Q2 targets achieved.                      | 100% of WSP Q3 targets achieved.                      | 100% of WSP Q4 targets achieved.                      | 100% of WSP Q4 targets achieved.                      |
| 9. Percentage implementation of the Annual Internal Audit Plan.          | 100% implementation of the Annual Internal Audit Plan. | 20% implementation of the Annual Internal Audit Plan. | 30% implementation of the Annual Internal Audit Plan. | 30% implementation of the Annual Internal Audit Plan. | 30% implementation of the Annual Internal Audit Plan. | 30% implementation of the Annual Internal Audit Plan. | 30% implementation of the Annual Internal Audit Plan. | 20% implementation of the Annual Internal Audit Plan. |

### **5.3 Explanation of planned performance over the medium-term period**

Programme 1 will adopt a communication approach aligned with the government's developmental communication principles, focusing on providing accurate, timely information about the Department's policies, ensuring accessibility for all South Africans, and implementing programs for dialogue and citizen feedback on tourism matters. This includes:

- Provision of accurate and timely information about the Department's policies, programmes, services, and plans to the public
- Ensuring that departmental information is accessible to all South Africans to enable them to participate in tourism matters;
- Adopting and implementing programmes that will facilitate dialogue between the Department and the citizens, and establishing feedback mechanisms to allow citizens to contribute to the tourism agenda.
- Implementation of the Annual Internal Audit Plan will ensure the improvement of risk, control, and governance processes throughout the Department and also assist the Accounting Officer in the effective discharge of his responsibilities in terms of Section 38 (a) (ii) of the PFMA of 1999.

#### **5.4.1 Narrative: explanation of the resource allocation to achieve the outputs**

Included in Programme 1: Administration, is the Ministry, Management, Corporate Management, Financial Management, and Office Accommodation. Corporate Management includes the Deputy Director-General: Corporate Management, Human Resources, Communication, Legal Services, Strategy & Systems, Information & Communication Technology, and Internal Audits. This programme budget is 15 percent of the total departmental budget for the 2024/25 financial year. An amount of R359.4 million has been allocated for this programme of which R195.6 million (54 percent) is for the Compensation of Employees.

The amount allocated for Office Accommodation for the 2024/25 financial year is R40.6 million. This is for the payment of the Head Office Building of Tourism to the Department of Public Works towards the lease agreement. Goods and services budget allocation includes our contractual commitments for computer services as well as our audit payments to the Office of the Auditor-General South Africa.

## **Programme 2: Tourism Research, Policy and International Relations**

**Purpose:** Enhance the strategic policy environment, monitor the tourism sector's performance, and enable stakeholder relations.

### **Sub-Programmes and Purpose:**

- **Research and Knowledge Management** oversees tourism research, knowledge management, and impact evaluation of the sector.
- **Policy Planning and Strategy** oversees and guides policy and strategy development for the tourism sector, and ensures the efficient and effective management of stakeholder relations.
- **International Relations and Cooperation** drives South Africa's interests through international relations and cooperation.

## 5.5 Outcomes, Outputs, Performance Indicators and Targets

**Table 3: Outcomes, Outputs, Output Indicators and Targets**

| Output Indicator  | Audited/Actual Performance   | Annual Target   |   |  | MTEF Period  |  |  |
|---|--|---|---|--|--|--|--|
|   |  | 2020/21   | 2021/22   | 2022/23  |  |  |  |
| <b>Outcome: Increase the tourism sector's contribution to inclusive economic growth</b>       |  |   |   |  |  |  |  |
| <b>Sub-programme: Research and Knowledge Management</b>                                       |  |   |   |  |  |  |  |
| <b>Output: Provision of knowledge services to inform policy, planning and decision-making</b> |  |   |   |  |  |  |  |
| 1. Number of monitoring and evaluation reports on tourism projects developed.                 | Two Reports on the Impact of Evaluation of COVID-19 on tourism sector were produced. | Eight Monitoring and Evaluation reports produced:   | Five Monitoring and Evaluation Reports on tourism projects and initiatives developed: | Five Monitoring and Evaluation Reports on tourism projects and initiatives developed:  | Four Monitoring and Evaluation Reports on tourism projects developed:      |  |  |
|   |  | 1. Implementation of the Norms and Standards for Safe Operations in the sector was monitored. |   | 1. Assessment of the State of Publicly Owned Tourist Attractions (National Parks, Museums and Provincial Parks) in South Africa. | 1. Evaluation of the impact of infrastructure supporting tourism projects. |  |  |
|   |  |   | 1. Evaluation of the Resource Efficiency Project was conducted.                       |  | 1. Impact Evaluation Report Capacity Building Programme.                   |  |  |
|   |  |   |   |  | 1. Evaluation of the impact of the Green Tourism Incentive Programme       |  |  |

## **5.7 Explanation of planned performance over the medium-term**

To enhance the strategic policy environment, monitor the tourism sector's performance, and enable stakeholder relations, Programme 2: Tourism Research, Policy, and International Relations, provides support to the Department and the tourism sector through the provision of the following services: Research; Statistics; Knowledge Management; Monitoring and Evaluation; Policy and Strategy Development; International Relations; and Strategic Sector Partnerships.

Timely and reliable monitoring and evaluation support project and programme implementation with accurate evidence-based reporting that informs project and programme reviews and priorities to guide and improve institutional plans and performance. Furthermore, monitoring and evaluation provide opportunities for stakeholder engagement and feedback, especially from beneficiaries and project funders to better inform project and programme implementation and strategic objectives thereby modelling the best ways to learn from experiences and to adapt to changing needs and priorities.

To monitor and evaluate the performance of the tourism sector, Bi-Annual Tourism Sector Performance Reports will be developed which will include key indicators for reporting purposes and to inform decision-making. The report will include amongst others the performance of key tourism industries such as accommodation as well as food and beverages. Furthermore, the importance of tourism will be demonstrated by monitoring the contribution of tourism to the GDP and employment within the country. Inbound and domestic tourism performance will also be monitored.

To strengthen regional integration and showcase South Africa's products and services globally, the focus will be on participating at multilateral and bilateral platforms and engaging key stakeholders including the diplomatic communities to contribute to the tourism recovery in line with the Tourism Recovery Plan and the NTSS. It will be important to leverage South Africa's tourism interests in six multilateral and prioritised bilateral platforms and other bilateral formations.

To enable departmental service offerings through a modernised digital platform, the concentration of resources will be on the development and maintenance of digital and knowledge systems that will be available to the public stakeholders for interaction with the department. The maintenance and enhancement of the tourist guide information systems ensures that the National Registrar maintains an updated, validated, and consistent database of registered tourist guides across the country. The implementation of the MASP application system will bring a seamless application process for the applicants; thus, also ensuring rapid evaluations, communication, and feedback channels between the department to the applicants.

## 1.8 Programme Resource Consideration

### **5.8.1 Narrative: explanation of the resource allocation to achieve the outputs**

The Tourism Research, Policy, and International Relations programme has a budget allocation of R1.336 billion for 2024/25 after absorbing a budget reduction of R140.5 million which has been allocated to the SA Tourism (SA Tourism) budget. The total budget allocated to SAT after the reduction amounts to R1.244 billion which represents 93 percent of the branch's budget allocation. The remaining allocation available for this Programme is R92.1 million of which R60.8 million is allocated to Compensation of Employees for the branch. The foreign transfer payments of the membership fee in respect of the United Nations World Tourism Organisation (UNWTO) are vested in this branch.

### **Programme 3: Destination Development**

**Purpose:** Facilitate and coordinate tourism destination development.

#### **Sub-Programmes and purpose:**

- **Destination Planning and Investment Coordination** ensure that tourism infrastructure supports the current and future growth of the sector.
- **Tourism Enhancement** increases the competitiveness of South Africa's tourism industry.
- **Working for Tourism** facilitates the development of tourism infrastructure projects under the Expanded Public Works Programme through labour-intensive methods targeted at youth, women, unemployed, and Persons with disabilities and small, medium, and micro enterprises.

## 5.9 Outcomes, Outputs, Performance Indicators and Targets

**Table 5: Outcomes, Outputs, Output Indicators and Targets**

| Output Indicator  | Annual Target  |  |  | MTEF Period  |  |  |

## **5.11 Planned performance over the medium-term period**

Programme 3 responds to tourism demand (i.e. the needs of tourists) by ensuring that supply-side measures are put in place for tourism places and physical spaces. This is achieved through the provision of coherent destination planning, investment promotion, tourism product and infrastructure enhancement and development, experience development, and job creation. During the medium term, the Programme will accelerate the implementation of the Community Based Tourism Projects and the Tourism Infrastructure and Maintenance Programme, facilitate tourism investment coordination, as well as coordinate the tourism planning process with greater emphasis on socio-economically depressed regions and in alignment with the District Development Model. Programme 3 is achieved through the following sub-programmes:

**Destination Planning and Investment Coordination:** This sub-programme focuses on broader longer-term planning for destinations, precinct planning, shared design, etc. In terms of the investment area of work, the sub-programme supports investment promotion and facilitation of nationally prioritised projects - in support of provincial, municipal, community, and private sector initiatives. Key interventions in these areas of work are the implementation of the Budget Resort Concept and Brand, Management, and Promotion of Nationally prioritised Tourism Investment Opportunities/Projects.

**Destination Enhancement and Tourism Integration:** This sub-programme seeks to enhance destinations by developing attractions that anchor such destinations, but that might not lend themselves to private sector investment, as well as integrating the work of the Department with that of other sectors, including arts and culture, sports and recreation. Key interventions in this area of work are the investment in the maintenance of state-owned assets, work in a world heritage site and the development of community-owned tourism assets to support inclusive economic growth, product diversification, and geographic spread.

**Working for Tourism (WfT)** is the Department's Expanded Public Works Programme (EPWP). The sub-programme provides the main source of funding for both infrastructure and skills development programmes. The cumulative output of both the skills development and infrastructure projects is to provide Work Opportunities in particular for youth, women, and people with disabilities.

### **5.12.1 Narrative: explanation of the resource allocation to achieve the outputs**

Destination Development has a budget allocation of R367.8 million for 2024/25 after absorbing a budget reduction of R48 million which has been placed on the Expanded Public Works Programme (EPWP) within the Working for Tourism sub-programme. After these budget reductions, a total amount of R297.7 million is allocated to the Working for Tourism sub-programme which represents 81 percent of the budget of the total programme. Working for Tourism consists of the Expanded Public Works Programme and Expanded Public Work Incentive Programme. R64.5 million is allocated to Compensation of Employees for the branch which represents 18 percent of the total budget for the financial year.

## **Programme 4: Tourism Sector Support Services**

**Purpose:** Enhance transformation, increase skill levels and support the development of the sector to ensure that South Africa is a competitive tourism destination.

### **Sub-Programmes and Purpose:**

- **Tourism Human Resource Development** manages and facilitates the efficient management and implementation of tourism sector human resource development initiatives
- **Enterprise Development and Transformation** manages and facilitates inclusive participation and sustainability in the tourism sector.
- **Tourism Visitor Services** manage and co-ordinate information integrity and facilitates accurate information for travelling.
- **Tourism Incentive Programme** manages the establishment of capital and non-capital tourism incentives to promote and encourage tourism development and growth.

5.13 Outcomes, Outputs, Performance Indicators and Targets

**Table 7: Outcomes, Outputs, Output Indicators and Targets**

## **5.15 Explanation of planned performance over the medium-term period**

The Tourism Sector Support Services ensures that the tourism sector is transformed, and supported through the Skills Development and Enterprise Development Programmes. The outputs and outcomes identified will not only assist in empowering retrenched women, youth, and people with disabilities to enjoy and participate in the tourism space but will ensure that interventions are set and implemented for tourism across the value chain to enable safe tourism operation and rebuild consumer confidence.

Transformation is one of the key pillars of the NDP, and the main driver for inclusive economic growth and job creation. Following the amendment of the Generic Codes for B-BBEE by the DTIC, the Tourism Transformation Council of South Africa developed the new transformation Code for the tourism sector in consultation with tourism stakeholders to de-racialise and advance economic transformation in the sector. The performance is to deliver needs-based enterprise development support programmes that will strengthen the sustainability of rural-based tourism enterprises, including community-owned tourism establishments. The outputs and outcomes identified will seek to increase the participation of women and youth in tourism. Events and Festivals can be critical stimulators of tourism with the longer-term goal of catalysts for economic development, attracting inbound and domestic tourists, improving destinations, encouraging municipal development, attracting investment, and brand improvement and positioning.

In 2024/25, the Department will pilot the use of events and festivals to expand township and rural tourism to support the sustained revitalization of affordable and accessible domestic travel and tourism. The performance aims to create capacity among youth in the country who would be upskilled in the promotion of energy efficiency, water-use efficiency, and proper waste management in the tourism sector.

Visitor services are key to domestic and international travel as they seek to ensure information integrity and facilitate accurate information for planning travel to the country. They may take the form of the provision of tourism information (including all travel information channels, through digital, brochures, and Visitor Information Centres). When travellers visit a country, they need to be assured of safety when travelling through a destination to experience a variety of a country's attractions. The outputs and outcomes identified will not only promote visible safety monitoring but will ensure that the norms and standards set to promote safe tourism operations are well promoted and monitored at different attractions across the country.

Great advances have been made in the introduction of tourism and hospitality to the formerly disadvantaged schools that are mostly found in rural areas and townships. Tourism is a new learning area; it was also one of those subjects that were construed as a new strategy to advance job opportunities in South Africa. The teaching of tourism in South Africa takes place in public and private high schools and universities, especially since 1996. It is envisioned that our programmes would benefit mostly learners from previously disadvantaged communities, including exciting them to take up careers in travel and hospitality.

Recent process improvements and streamlining of the application process have resulted in improved turnaround times and an increase in the number of applications submitted for adjudication in the GTIP. The programme is now well established and a growing number of beneficiaries have completed installations and are starting to reap the benefits of more efficient energy and water systems. The success of the programme to date has supported the recent extension and recapitalisation of the programme.

### **5.16.1 Narrative: explanation of the resources allocation to achieve the outputs**

Tourism Sector Support Services has a budget allocation of R318.1 million for 2024/25 after absorbing a budget reduction of R67.8 million placed on the Tourism Incentive Programme (TIP). After this budget reduction, the TIP has been allocated a budget of R191 million. Projects within the TIP include tourism transformation through the TEF, and green tourism projects. The Compensation of Employees represents 29 per cent of the branch's total allocation amounting to R91 million for the financial year.

## 6. UPDATED KEY RISKS AND MITIGATIONS

**Table 9: Updated Key Risks**

| OUTCOMES   | RISK NO. | KEY RISKS  | RISK MITIGATIONS   |
|--|----------|--|--|
| Increase the tourism sector's contribution to inclusive economic growth. | SR 1     | Slow transformation pace in the tourism sector.                              | Implement programmes to support sector transformation including the TIP and enterprise development programmes.   |
|  | SR 2     | Safety concerns impacting on visitor experience.                             | Implement the Tourism Safety Strategy with sector and government partners.   |
|  | SR 3     | Extreme weather events and climate change impact on tourism.                 | <ul style="list-style-type: none"> <li>• Conduct Climate Change Vulnerability Assessments.</li> <li>• Implement the Climate Change Communication Strategy.</li> </ul>                    |
|  | SR 4     | Misinformation and disinformation impacting on the brand of the destination. | Finalise a detailed risk assessment and develop a response.  |
|  | SR 5     | Inadequate maintenance of tourism infrastructure.                            | <ul style="list-style-type: none"> <li>• Identify the tourism infrastructure maintenance needs.</li> <li>• Implement the tourism maintenance programme in state-owned assets.</li> </ul> |

## 7. PUBLIC ENTITY

**Table 10: Public Entities**

| Name of Public Entity               | Mandate  | Outcomes   |
|-------------------------------------|--|--|
| South African Tourism (SA Tourism). | <p>Chapter 3 of the Tourism Act, 2014 stipulates the following as the functions of the SA Tourism Board:</p> <ul style="list-style-type: none"> <li>• Market South Africa as a domestic and international tourist destination.</li> <li>• Market SA Tourism products and facilities internationally and domestically.</li> <li>• Develop and implement a marketing strategy for tourism that promotes the objectives of the Act and the NTSS.</li> <li>• Advise the Minister on any other matter relating to tourism marketing.</li> <li>• With the approval of the Minister, establish a National Conventions Bureau to market South Africa as a business tourism destination by: <ul style="list-style-type: none"> <li>○ Coordinating bidding for international conventions;</li> <li>○ Liaising with other organs of state and suitable bodies to promote South Africa as a destination for business events; and</li> <li>○ Reporting to the Minister on the work performance of the National Conventions Bureau.</li> </ul> </li> </ul> <p>Additionally, the Minister assigned, in terms of section 44 of the Tourism Act, 2014, the implementation and management of the National Grading System for Tourism to the Board.</p> | <ul style="list-style-type: none"> <li>• Increase the tourism sector's contribution to inclusive economic growth.</li> <li>• Achieve good corporate and cooperative governance.</li> </ul> |

## 8. INFRASTRUCTURE PROJECTS

None.

## PART D: TECHNICAL INDICATOR DESCRIPTION (TID)

### PROGRAMME 1: ADMINISTRATION

#### 1. Sub-Programme: Financial Management

| Indicator Title                                    | 1. Audit outcome on financial statements and non-financial performance information                        |
|--|---|
| Definition   | Measures and tests the reliability and usefulness of financial and non-financial performance information. |
| Source of data                                     | Auditor-General's Report.   |
| Method of Calculation / Assessment                 | Application of audit procedures by the AGSA on financial and non-financial performance information.       |
| Means of verification                              | Final Management Report issued by the AGSA.   |
| Assumptions  | Effective audit procedures by AGSA for conducting audits.   |
| Disaggregation of Beneficiaries (where applicable) | Not applicable.   |
| Spatial Transformation (where applicable)          | Not applicable.   |
| Calculation Type                                   | Non-cumulative.   |
| Reporting Cycle                                    | Quarterly   |
| Desired performance                                | Performance higher than the target is acceptable.   |
| Indicator Responsibility                           | DDG: Corporate Management and Chief Financial Officer.  |

| Indicator Title                                    | 2. Percentage procurement of goods and services from SMMEs   |
|--|--|
| Definition   | Measures percentage expenditure from compliant SMMEs.  |
| Source of data                                     | LOGIS and BAS system and Central Supplier Database (CSD).  |
| Method of Calculation / Assessment                 | Expenditure on procurement from compliant SMMEs as a proportion of total Departmental expenditure. |
| Means of verification                              | Reports from CFO with evidence.  |
| Assumptions  | Procurement from government institutions, public entity, and transversal contracts is excluded.    |
| Disaggregation of Beneficiaries (where applicable) | Not applicable.  |
| Spatial Transformation (where applicable)          | Not applicable.  |
| Calculation Type                                   | Non-cumulative.  |
| Reporting Cycle                                    | Quarterly.   |
| Desired performance                                | Performance higher than the target is acceptable.  |
| Indicator Responsibility                           | Chief Financial Officer.   |

| <b>Indicator Title</b>                             | <b>3. Percentage of compliant invoices paid within prescribed timeframes</b>   |
|--|--|
| Definition   | Measures the percentage of compliant invoices paid within 30 days to suppliers of goods and services   |
| Source of data                                     | BAS.   |
| Method of Calculation / Assessment                 | Invoices: Number of days taken to process payment for valid invoices received.<br>Mandatory Payment: payments made to relevant bodies in line with prescripts. |
| Means of verification                              | Reports from OCFO with evidence.   |
| Assumptions  | Reliability of reports from the unit.  |
| Disaggregation of Beneficiaries (where applicable) | Not applicable.  |
| Spatial Transformation (where applicable)          | Not applicable.  |
| Calculation Type                                   | Non-Cumulative.  |
| Reporting Cycle                                    | Quarterly.   |
| Desired performance                                | Performance higher than the target is acceptable.  |
| Indicator Responsibility                           | Chief Financial Officer.   |

| <b>Indicator Title</b>                             | <b>4. Percentage of procurement spend from women-owned businesses</b>                                       |
|--|---|
| Definition   | Measures percentage procurement from women-owned businesses   |
| Source of data                                     | Logis System, BAS System, and Central Supplier Database   |
| Method of Calculation / Assessment                 | Percentage procurement from women-owned businesses as a proportion of total Departmental procurement        |
| Means of verification                              | Reports from OCFO with relevant evidence  |
| Assumptions  | Exclusion of Procurement from Government institutions, Entities, and Transversal Contracts (e.g. SITA, NT). |
| Disaggregation of Beneficiaries (where applicable) | Disaggregated information for women   |
| Spatial Transformation (where applicable)          | Not Applicable  |
| Calculation Type                                   | Non-Cumulative  |
| Reporting Cycle                                    | Quarterly   |
| Desired performance                                | Performance higher than target is acceptable  |
| Indicator Responsibility                           | Chief Financial Officer.  |

**2. Sub-Programme: Strategy and Systems**

| Indicator Title                                    | 5. Number of public entity oversight reports developed  |
|--|---|
| Definition   | Measures the number of instruments developed to promote good governance and oversight of SA Tourism |
| Source of data                                     | Inputs from other programmes.   |
| Method of Calculation / Assessment                 | Simple count - number of instruments developed and submitted against the planned target.            |
| Means of verification                              | Instruments developed and inputs from other programmes  |
| Assumptions  | Reliability of reports from the relevant units.   |
| Disaggregation of Beneficiaries (where applicable) | Not applicable.   |
| Spatial Transformation (where applicable)          | Not applicable.   |
| Calculation Type                                   | Non-Cumulative.   |
| Reporting Cycle                                    | Quarterly.  |
| Desired performance                                | Performance higher than the target is acceptable.   |
| Indicator Responsibility                           | DDG: Corporate Management.  |

**3. Sub-Programme: Human Recourse Management and Development**

| Indicator Title                                    | 6. Percentage of Vacancy rate.  |
|--|---|
| Definition   | Measures the percentage of vacant posts as a proportion of funded posts.  |
| Source of data                                     | PERSAL System.  |
| Method of Calculation / Assessment                 | Percentage of vacant posts as a proportion of funded posts (Number of funded vacant posts / total funded establishment = vacancy rate). |
| Means of verification                              | Vacancy rate report from the PERSAL system.   |
| Assumptions  | Reliability and availability of PERSAL reports.   |
| Disaggregation of Beneficiaries (where applicable) | Not applicable.   |
| Spatial Transformation (where applicable)          | Not applicable.   |
| Calculation Type                                   | Non-Cumulative.   |
| Reporting Cycle                                    | Quarterly.  |
| Desired performance                                | Vacancy rate below specified percentage.  |
| Indicator Responsibility                           | DDG: Corporate Management.  |

|   |  |
|---|--|
| <b>Indicator Title</b>                                    | <b>7. Percentage of compliance with Departmental Employment Equity Targets.</b>  |
| <b>Definition</b>   | Measures: <ul style="list-style-type: none"><li>• Percentage of women representation in the Senior Management Service;</li><li>• Percentage representation of persons with disabilities as a proportion of the filled posts;</li></ul> |
| <b>Source of data</b>                                     | PERSAL System.   |
| <b>Method of Calculation / Assessment</b>                 | Proportional representation of prioritised categories against funded posts   |
| <b>Means of verification</b>                              | EE Report with evidence.   |
| <b>Assumptions</b>  | Reliability and availability of PERSAL reports.  |
| <b>Disaggregation of Beneficiaries (where applicable)</b> | Not applicable.  |
| <b>Spatial Transformation (where applicable)</b>          | Not applicable.  |
| <b>Calculation Type</b>                                   | Non-cumulative.  |
| <b>Reporting Cycle</b>                                    | Quarterly.   |
| <b>Desired performance</b>                                | Performance higher than the target is acceptable.  |
| <b>Indicator Responsibility</b>                           | DDG: Corporate Management.   |

|   |  |
|---|--|
| <b>Indicator Title</b>                                    | <b>8. Percentage of Workplace Skills Plan (WSP) implemented.</b>   |
| <b>Definition</b>   | Measures the percentage implementation of interventions on the WSP   |
| <b>Source of data</b>                                     | Progress report from HRD Unit.   |
| <b>Method of Calculation / Assessment</b>                 | Percentage of interventions implemented against the total planned for the year.  |
| <b>Means of verification</b>                              | Quarterly Training report with evidence.   |
| <b>Assumptions</b>  | Reliability of reports   |
| <b>Disaggregation of Beneficiaries (where applicable)</b> | <ul style="list-style-type: none"><li>• Target for women: 50%.</li><li>• Target for youth: 5% of the establishment (internship programme).</li></ul> |
| <b>Spatial Transformation (where applicable)</b>          | Not Applicable.  |
| <b>Calculation Type</b>                                   | Non-cumulative.  |
| <b>Reporting Cycle</b>                                    | Quarterly  |
| <b>Desired performance</b>                                | Performance lower than stated targets is not acceptable.   |
| <b>Indicator Responsibility</b>                           | DDG: Corporate Management.   |

4. Sub-Programme: Internal Audit

| <b>Indicator Title</b>                             | <b>9. Percentage implementation of the Annual Internal Audit Plan</b>  |
|--|--|
| Definition   | Measures percentage implementation of internal audit activities against the approved Internal Audit Plan.  |
| Source of data                                     | Progress report from Internal Audit Unit.  |
| Method of Calculation / Assessment                 | Number of issued reports as per the approved internal audit plan.  |
| Means of verification                              | <ul style="list-style-type: none"> <li>• Finalised internal audit reports issued to the Accounting Officer.</li> <li>• Progress Report against the internal audit plan presented to Audit Committee quarterly meetings.</li> </ul> |
| Assumptions  | Provision of reasonable assurance on the accuracy, completeness, and reliability of the reported Performance information based on credible data sources.   |
| Disaggregation of Beneficiaries (where applicable) | Not Applicable.  |
| Spatial Transformation (where applicable)          | Not Applicable.  |
| Calculation Type                                   | Cumulative (year-end)  |
| Reporting Cycle                                    | Quarterly  |
| Desired performance                                | Performance lower than stated targets is not acceptable.   |
| Indicator Responsibility                           | Director: Internal Audit.  |

## PROGRAMME 2: TOURISM RESEARCH, POLICY AND INTERNATIONAL RELATIONS

### 1. Sub-Programme: Research and Knowledge Management

| Indicator Title                                    | 1. Number of monitoring and evaluation reports on tourism projects developed   |
|--|--|
| Definition   | Measures the number of monitoring and evaluation reports produced to inform planning and decision-making.                                |
| Source of data                                     | Reports from the M&E unit  |
| Method of Calculation / Assessment                 | Simple count.  |
| Means of verification                              | Reports from the unit with evidence.   |
| Assumptions  | Reliability of reports from the sources of data.   |
| Disaggregation of Beneficiaries (where applicable) | <ul style="list-style-type: none"> <li>• Women</li> <li>• Youth</li> <li>• People with disability</li> <li>• Other groups</li> </ul>     |
| Spatial Transformation (where applicable)          | <ul style="list-style-type: none"> <li>• Disaggregation by province.</li> <li>• Impact evaluation by province where relevant.</li> </ul> |
| Calculation Type                                   | Cumulative (year-end)  |
| Reporting Cycle                                    | Quarterly  |
| Desired performance                                | Performance higher than the target is desirable.   |
| Indicator Responsibility                           | DDG: Tourism Research, Policy and International Relations.   |

| Indicator Title                                    | 2. Number of knowledge systems developed and maintained                           |
|--|---|
| Definition   | Measures the number of information and knowledge systems developed for tourism.   |
| Source of data                                     | Reports from the Knowledge Management Unit.                                       |
| Method of Calculation / Assessment                 | Simple count - number of information and knowledge systems developed for tourism. |
| Means of verification                              | Reports from the unit with evidence.  |
| Assumptions  | Reliability of reports from the unit.   |
| Disaggregation of Beneficiaries (where applicable) | Not applicable.   |
| Spatial Transformation (where applicable)          | Not applicable.   |
| Calculation Type                                   | Cumulative (year-end)   |
| Reporting Cycle                                    | Quarterly   |
| Desired performance                                | Performance higher than the target is desirable.                                  |
| Indicator Responsibility                           | DDG: Tourism Research, Policy and International Relations.                        |

2. Sub-Programme: International Relations and Cooperation

|   |  |
|---|--|
| <b>Indicator Title</b>                                    | <b>3. Number of fora prioritised to advance South Africa's tourism interests at regional, continental and global level through multilateral and other groupings</b>  |
| <b>Definition</b>   | Measures the number of fora prioritised to advance South Africa's tourism interests at regional, continental, and global levels through multilateral other groupings |
| <b>Source of data</b>                                     | Reports from the Unit.   |
| <b>Method of Calculation / Assessment</b>                 | Simple count - number of fora prioritised to advance South Africa's tourism interests.   |
| <b>Means of verification</b>                              | Reports from the unit with evidence.   |
| <b>Assumptions</b>  | Reliability of reports from the unit.  |
| <b>Disaggregation of Beneficiaries (where applicable)</b> | Not applicable.  |
| <b>Spatial Transformation (where applicable)</b>          | Not applicable.  |
| <b>Calculation Type</b>                                   | Cumulative (year-end)  |
| <b>Reporting Cycle</b>                                    | Quarterly  |
| <b>Desired performance</b>                                | Performance higher than the target is desirable.   |
| <b>Indicator Responsibility</b>                           | DDG: Tourism Research, Policy, and International Relations.  |

|   |  |
|---|--|
| <b>Indicator Title</b>                                    | <b>4. Sharing of Best Practices Workshop hosted.</b>               |
| <b>Definition</b>   | Assesses whether the Sharing of Best Practices workshop is hosted. |
| <b>Source of data</b>                                     | Reports from the IRC unit.   |
| <b>Method of Calculation / Assessment</b>                 | Qualitative  |
| <b>Means of verification</b>                              | Reports from the unit with evidence                                |
| <b>Assumptions</b>  | Reliability of reports from the unit.                              |
| <b>Disaggregation of Beneficiaries (where applicable)</b> | Not applicable   |
| <b>Spatial Transformation (where applicable)</b>          | Not applicable   |
| <b>Calculation Type</b>                                   | Non-cumulative   |
| <b>Reporting Cycle</b>                                    | Quarterly  |
| <b>Desired performance</b>                                | Performance higher than the target is desirable                    |
| <b>Indicator Responsibility</b>                           | DDG: Tourism Research, Policy and International Relations.         |

|   |   |
|---|---|
| <b>Indicator Title</b>                                    | <b>5. Number of outreach programmes with the diplomatic community implemented.</b>  |
| <b>Definition</b>   | Measures the number of outreach programmes to the diplomatic community implemented. |
| <b>Source of data</b>                                     | Reports from the IRC unit.  |
| <b>Method of Calculation / Assessment</b>                 | Simple count - number of outreach programmes implemented.                           |
| <b>Means of verification</b>                              | Reports from the unit with evidence   |
| <b>Assumptions</b>  | Reliability of reports from the unit.   |
| <b>Disaggregation of Beneficiaries (where applicable)</b> | Not applicable  |
| <b>Spatial Transformation (where applicable)</b>          | Not applicable  |
| <b>Calculation Type</b>                                   | Cumulative (year-end)   |
| <b>Reporting Cycle</b>                                    | Quarterly   |
| <b>Desired performance</b>                                | Performance higher than the target is desirable                                     |
| <b>Indicator Responsibility</b>                           | DDG: Tourism Research, Policy and International Relations.                          |

## PROGRAMME 3: DESTINATION DEVELOPMENT

### 1. Sub-Programme: Destination Planning and Investment Coordination

| <b>Indicator Title</b>                             | <b>1. Number of destination planning and investment coordination initiatives undertaken.</b>      |
|--|---|
| Definition   | Measures the number of destination planning and investment coordination initiatives implemented.  |
| Source of data                                     | Reports from the Unit.  |
| Method of Calculation / Assessment                 | Simple count - number of destination planning and investment coordination initiatives undertaken. |
| Means of verification                              | Reports from the unit with evidence.  |
| Assumptions  | Reliability of reports from the unit.   |
| Disaggregation of Beneficiaries (where applicable) | Not applicable.   |
| Spatial Transformation (where applicable)          | Spatial distribution can be provided for specific projects.                                       |
| Calculation Type                                   | Cumulative (year-end)   |
| Reporting Cycle                                    | Quarterly   |
| Desired performance                                | Performance higher than the target is acceptable.   |
| Indicator Responsibility                           | DDG: Destination Development  |

### 2. Sub-Programme: Tourism Enhancement

| <b>Indicator Title</b>                             | <b>2. Number of destination enhancement initiatives supported</b>                          |
|--|--|
| Definition   | Measures the number of destination enhancement initiatives implemented in the medium term. |
| Source of data                                     | Reports from the Unit.   |
| Method of Calculation / Assessment                 | Simple count - number of destination enhancement initiatives supported.                    |
| Means of verification                              | Reports from the unit with supporting evidence.  |
| Assumptions  | Reliability of reports with supporting evidence from the unit.                             |
| Disaggregation of Beneficiaries (where applicable) | Not applicable.  |
| Spatial Transformation (where applicable)          | Spatial distribution can be provided for specific projects.                                |
| Calculation Type                                   | Cumulative (year-end)  |
| Reporting Cycle                                    | Quarterly  |
| Desired performance                                | Performance higher than the target is acceptable.  |
| Indicator Responsibility                           | DDG: Destination Development   |

3. Sub-Programme: Working for Tourism

| Indicator Title                                    | 3. Number of work opportunities created through Working for Tourism projects.   |
|--|---|
| Definition   | Measures the number of jobs created through the Department's Working for Tourism Programme.   |
| Source of data                                     | Reports from the Unit.  |
| Method of Calculation / Assessment                 | The calculation of work opportunities and FTEs is in accordance with a formula supplied by the Department of Public Works and Infrastructure. |
| Means of verification                              | Reports from the unit with evidence.  |
| Assumptions  | Reliability of reports from the unit.   |
| Disaggregation of Beneficiaries (where applicable) | Provide disaggregated data for youth, gender, and PWDs.   |
| Spatial Transformation (where applicable)          | Spatial distribution can be provided for specific projects.   |
| Calculation Type                                   | Cumulative (year-end)   |
| Reporting Cycle                                    | Quarterly.  |
| Desired performance                                | Performance higher than the target is acceptable.   |
| Indicator Responsibility                           | DDG: Destination Development  |

## PROGRAMME 4: TOURISM SECTOR SUPPORT SERVICES

### 1. Sub-Programme: Tourism Incentive Programme

| Indicator Title                                    | 1. Number of incentive programmes implemented.   |
|--|--|
| Definition   | Measures the number of specific incentives implemented as part of the overall Tourism Incentive Programme. |
| Source of data                                     | Reports from the unit  |
| Method of Calculation / Assessment                 | Simple count - number of incentive programmes implemented.   |
| Means of verification                              | Reports from the unit with evidence.   |
| Assumptions  | Reliability of reports from the unit   |
| Disaggregation of Beneficiaries (where applicable) | Yes, in terms of gender, ownership, and transformation status.   |
| Spatial Transformation (where applicable)          | Yes, in terms of the geographic spread of beneficiaries.   |
| Calculation Type                                   | Non-Cumulative   |
| Reporting Cycle                                    | Quarterly  |
| Desired performance                                | Performance lower than the target is not acceptable  |
| Indicator Responsibility                           | DDG: Tourism Sector Support Services.  |

### 2. Sub-Programme: Enterprise Development and Transformation

| Indicator Title                                    | 2. Number of Domestic Tourism Awareness Programmes implemented.              |
|--|--|
| Definition   | Measures the number of programmes implemented to stimulate domestic tourism. |
| Source of data                                     | Reports from the Domestic Tourism Facilitation unit                          |
| Method of Calculation / Assessment                 | Simple count - number of Domestic Tourism Awareness Programmes implemented.  |
| Means of verification                              | Reports from the unit with evidence.   |
| Assumptions  | Reliability of reports from the unit.  |
| Disaggregation of Beneficiaries (where applicable) | Not applicable.  |
| Spatial Transformation (where applicable)          | Spatial distribution can be provided for specific projects.                  |
| Calculation Type                                   | Cumulative (year-end)  |
| Reporting Cycle                                    | Quarterly.   |
| Desired performance                                | Performance higher than the target is acceptable.                            |
| Indicator Responsibility                           | DDG: Tourism Sector Support Services   |

### 3. Sub-Programme: Tourism Visitor Services

|  |  |
|--|--|
| <b>Indicator Title</b>                             | <b>3. Number of initiatives implemented to support tourism SMMEs.</b>                  |
| Definition   | Measures the number of initiatives implemented to support SMMEs in the tourism sector. |
| Source of data                                     | Reports from the Enterprise Development unit   |
| Method of Calculation / Assessment                 | Simple count - number of initiatives implemented to support tourism SMMEs.             |
| Means of verification                              | Reports from the unit with evidence.   |
| Assumptions  | Reliability of reports from the unit.  |
| Disaggregation of Beneficiaries (where applicable) | Yes, in terms of gender, ownership, and transformation status.                         |
| Spatial Transformation (where applicable)          | Spatial distribution can be provided for specific projects:                            |
| Calculation Type                                   | Cumulative (year-end)  |
| Reporting Cycle                                    | Quarterly  |
| Desired performance                                | Performance higher than the target is acceptable.                                      |
| Indicator Responsibility                           | DDG: Tourism Sector Support Services   |

|  |   |
|--|---|
| <b>Indicator Title</b>                             | <b>4. Number of programmes implemented to enhance visitor service and experiences.</b>      |
| Definition   | Measures the number of programmes implemented to enhance visitor service and experience.    |
| Source of data                                     | Reports from the Tourism Visitor Services unit  |
| Method of Calculation / Assessment                 | Simple count - number of programmes implemented to enhance visitor service and experiences. |
| Means of verification                              | Reports from the Tourism Visitor Services Unit with evidence.                               |
| Assumptions  | Reliability of reports from the unit.   |
| Disaggregation of Beneficiaries (where applicable) | Not applicable.   |
| Spatial Transformation (where applicable)          | Spatial distribution can be provided for specific projects.                                 |
| Calculation Type                                   | Cumulative (year-end).  |
| Reporting Cycle                                    | Quarterly.  |
| Desired performance                                | Performance higher than planned is desirable.   |
| Indicator Responsibility                           | DDG: Tourism Sector Support Services  |

| <b>Indicator Title</b>                             | <b>5. Number of capacity building programmes implemented.</b>      |
|--|--|
| Definition   | Measures the number of capacity-building programmes implemented.   |
| Source of data                                     | Reports from the Tourism Sector Human Resource Development unit.   |
| Method of Calculation / Assessment                 | Simple count - number of capacity building programmes implemented. |
| Means of verification                              | Reports from the CD TSHRD Unit with evidence.                      |
| Assumptions  | Reliability of reports from the unit.                              |
| Disaggregation of Beneficiaries (where applicable) | Yes, in terms of gender, ownership, and transformation status.     |
| Spatial Transformation (where applicable)          | Spatial distribution can be provided for specific projects.        |
| Calculation Type                                   | Cumulative (year-end)  |
| Reporting Cycle                                    | Quarterly  |
| Desired performance                                | Performance higher than planned is desirable.                      |
| Indicator Responsibility                           | DDG: Tourism Sector Support Services                               |
